testimonials

...the life principles I learnt at the school, such as hard work, respect for others, striving for excellence and going above and beyond have remained with me over the years and have enabled me progress in all my life endeavours....

Fiyinfoluwa Runsewe | 2005 set
Manager, Global Mobility Services
KPMG

...I knew I had been armed with the sling and stones required to tackle the much talked about ginormous challenges the university would throw my way. My gleanings from Seed of Life College were practicable when it mattered...

Dr Okechukwu Erinne. | 2003 set
Medical Officer, Nigerian Army

About

SEED OF LIFE SCHOOLS

Seed of Life School is a private, co-educational Christian school located in the city of Ibadan, Oyo State. Seed of Life Schools started as a Crèche and Nursery School in 1991 and has since bloomed into Nursery, Primary and Secondary Schools with four locations in Ibadan. Our students are at the center of everything we do and our aim is to give them the best opportunities that we possibly can. With academics as our major focus, our students are also equipped with other fundamental skills to help them achieve mental, spiritual, physical and sociological growth. We are committed to nurturing them to enable them attain all round excellence. Our curriculum is fully Nigerian, always kept-up-to-date and constantly revised to meet the national academic standards and requirements as well as be internationally recognized. Our devout academic and administrative staff consists of a plethora of good teachers and qualified professionals in their respective fields. They are dedicated and committed to catering to the all-round development of our students.

Facilities

for effective learning

The learning environment is important. Our schools are purposefully designed to enhance the learning experience. Our classrooms are structured so the child gets the most from each tutor's instruction. Well lit, ventilated and clean.

The Seed of Life

WAY

Student-centered Learning

Our approach to teaching and learning is very dynamic and tailored to meet the specific needs of the students at different points in time. Our approach ensures that all our students are developing and learning at their own pace and as a result, excel in their academics.

Beyond the Classroom

In achieving our aim to foster and educate the 21st century child, we have carefully incorporated the "Beyond the Classroom" learning system into our curriculum. This system further enhances and supports our students' learning experiences by exposing them to opportunities that allow them develop key life skills and experience studies that cannot be achieved inside a classroom. All activities are curriculum-based and tailored to meet the learning needs of our students per time. Some of these activities include:

- **Excursions**
- **Vocational skills Training**
- **Entrepreneurship Development**
- **Sports,**
- **Special interest clubs like Board Games, Drama, Music, Ballet and more**
- **Coding(Computer Programming) Club**

Quality and Supportive Staff

The school has well trained and passionate teaching and non-teaching staff who are very proficient in their respective areas. Our teaching staff are much grounded and dedicated to their roles. With academic degrees ranging from Bachelor's to Master's levels, they are without doubt competent instructors for your children/wards.

They are required to be amiable and accommodating yet disciplined and firm with an energy that comes naturally to them. You can rest assured that your children/ward will be getting the needed attention

Homely Boarding Facility

Our hostel offers a 'home away from home' experience; the entire environment is designed and structured to help our students feel comfortable and happy. Our hostel staff have been equipped and are always present to take care of all the need of our students. The hostel is equipped with various facilities that enhance their experience and stay in the hostel. The hostel has spacious and well-ventilated rooms, comfortable relaxation

area, sporting facilities (football, basket, volleyball and table tennis), a library, a computer room, round the clock supervision and guidance from staff, 24hr CCTV monitoring and more.

Parent-Teacher Communication

This is an important part of student learning. You will be informed about your child's progress through regular report cards, and parent-teacher appointments that can be scheduled throughout the year after report cards are sent home.

Furthermore, We believe that the home front should be conducive for a child to bloom because the nature of the home is usually mirrored on them; in their attitudes and performance. In line with this, we organize workshops for parents on issues that they may face on a daily basis, for example, we organize workshop on health, fire safety, child psychology and more, for our parents.

**we believe,
we help**

Over **3 MILLION NAIRA**
in scholarships and financial aid
available to our students yearly
